

# **Productsheet WDMX**

## **LED strip controller**

# WDMX-LED strip controller

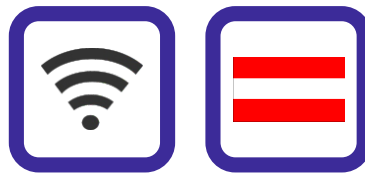

## Efficient & Profitable

A compact and powerful way to control LEDs using DMX radio.

a connected load of 40A per channel with a small design

High resolution PWM, you will never see a flicker in the camera

channel	4
current	40A
input connection	solder pads
output connection	solder pads
addressing	10 position DIP switch SMD
wireless modul	Wireless Solution
PWM ratio	32 kHz high resolution
power consumption Wireless	80mA
wireless DMX	Wireless Solution A40895G4
input Voltage	12 VDC
housing	open frame
operating temperature	0 - 45°C
weight	0,1kg
dimensions (mm)	53 x 32 x 20
designed and produced	in Austria
